florists and Nurserymen
EAST HAMPTON, N. Y.

Our Service To You

OUR policy is to be of all possible service to anyone who is in any way interested in the development of the beauty of his surroundings.

To that end we maintain a very completely stocked nursery and floral establishment, enabling one to select subjects that will adorn either home interior or home setting—one's grounds. As a man's character is often judged by his personal appearance, so also can it truly be said that the care he takes in the looks of the home surroundings is a reflection of dignity, whether it be merely a well-kept lawn with a well-placed shrub or tree or two, or a gorgeous display of landscape art. We are as pleased to help and suggest for a small outlay as a large one.

In the following pages you will find listed items that are admirably suited for your needs, either for garden or landscape work. We appreciate a call and the opportunity to show you through our grounds, entailing no obligation whatever on your part.

Our nurseries are conveniently located in the village of East Hampton on Cooper Lane and Cedar Street. Our office and flower shop are in the center of the village on Newtown Lane. From this point we are very pleased to show visitors over our grounds.

Guarantee

All our stock is guaranteed healthy, free from disease and true to name. In the event that you find any of our plants otherwise, a satisfactory adjustment will be made. Of course, it is understood that we cannot be held responsible for anything that may happen to stock after it is delivered to the customer in good condition and as specified above. If reasonable care is given plants and suggestions for planting followed, if not planted by us, your plants should grow and thrive as expected.

Terms

Prices are f.o.b. our nurseries, delivery and packing extra, unless otherwise arranged at time of sale. Delivery applies to points outside a fifteen-mile radius of our nurseries. Free deliveries within this radius on orders amounting to twenty dollars or over.

If no shipping directions are given, we will ship by most efficient method in our judgment.

Evergreens

Some of the most valued plants for landscape effect will be found in this group. They vary in color from the deepest to lightest greens, from bright to sombre golden tints and from soft blue greys to deep blue greens.

The diversity in habit of growth is as equally varied.

In our assortment will be found most all varieties suitable for the many uses required of evergreens in the landscape.

| 1½ to 2 ft. | 4.50 |
| 2 to 2½ ft. | 6.00 |
| 2½ to 3 ft. | 7.50 |

TSUGA. Hemlock

Tsuga canadensis (American Hemlock). A graceful evergreen tree, equally desirable for specimens or groups. Grown as a hedge, it produces a delightful effect.

| | |
|-------------------------|-------|
| 1 to 1½ ft. | 1.50 |
| 1½ to 2 ft. | 2.50 |
| 2 to 2½ ft. | 3.50 |
| 2½ to 3 ft. | 5.00 |
| 3 to 3½ ft. | 6.50 |
| 3½ to 4 ft. | 9.00 |
| 4 to 5 ft., very heavy. | 12.00 |
| 5 to 6 ft., very heavy. | 15.00 |
| 6 to 8 ft., very heavy. | 18.00 |

Tsuga canadensis (American Hemlock) grown as a hedge

Evergreen Shrubs

Varieties included in this chapter are most commonly known as "Broad-leaved Evergreens." Their outstanding characteristics and usefulness in the landscape is the wealth of colorful blooms afforded by many varieties and their particular fondness for shady places, making them available for planting in shady corners and other places about the lawn where it is difficult to get other plant material to thrive. Plant in groups to provide shade for the roots.

ABELIA grandiflora (Glossy Abelia).

Masses of pink blooms from July to frost; glossy foliage. Dwarf. Each
 1½ to 2 ft. \$1.00

ANDROMEDA. See **Pieris**.

AZALEA amoena (Amoena Azalea).

Royal purple blooms in May.
 6 in. 1.00
 12 in. 2.50
 12 to 15 in. 3.00
 15 to 18 in. 3.50
 1½ to 2 ft. 5.50
 2 to 2½ ft. 8.00
 5 to 6 ft., specimens. 40.00

A. hinodegiri (Hinodegiri Azalea).

Soft shade of pink; almost evergreen.
 9 to 12 in. 2.50
 12 to 15 in. 3.50
 15 to 18 in. 4.50
 1½ to 2 ft. 7.00
 2 to 2½ ft. 10.00

A. yodogawa (Yodogawa Azalea).

Semi-evergreen; flowers are double and of a purplish pink color.
 9 to 12 in. 2.00
 12 to 15 in. 2.50
 15 to 18 in. 3.50
 1½ to 2 ft. 4.00
 2 to 2½ ft. 6.00

COTONEASTER horizontalis (Rock

Cotoneaster). Myriads of small, apple-like blooms.
 8 to 12 in. 1.00
 1 to 1½ ft. 1.50
 1½ to 2 ft. 2.50

ILEX crenata (Japanese Holly).

Each

1½ to 2 ft. \$4.00
 2 to 2½ ft. 5.50
 2½ to 3 ft. 7.50

I. opaca (American Holly).

1½ to 2 ft. 2.50
 2 to 2½ ft. 3.00
 2½ to 3 ft. 4.00
 Standards, 6-7 ft. 5.00

KALMIA latifolia (Mountain-laurel).

Large, clusters of rosy white flowers.

12 to 18 in. 1.00
 18 to 21 in. 1.50
 21 to 24 in. 2.50
 2 to 2½ ft. 4.00
 2½ to 3 ft. 5.00
 3 to 4 ft. 6.00
 3 to 4 ft., very heavy. 10.00

LEUCOTHOE catesbaei (Drooping

Leucothoe. Long, drooping racemes of white blooms.

8 to 10 in. 1.25
 10 to 12 in. 1.50
 12 to 15 in. 2.00
 15 to 18 in. 2.50
 1½ to 2 ft. 3.00
 2 to 2½ ft. 4.00
 2½ to 3 ft. 6.00
 3 to 3½ ft. specimens. 10.00

MAHONIA aquifolium (Oregon Holly-grape). Yellow flowers; red and bronze foliage in the Fall.

| | Each |
|-----------------|--------|
| 1 to 1½ ft..... | \$1.50 |
| 1½ to 2 ft..... | 2.50 |
| 2 to 3 ft..... | 4.00 |

PIERIS floribunda (Mountain Andromeda). Large panicles of white flowers in early Spring.

| | |
|-----------------|------|
| 1 to 1½ ft..... | 2.00 |
| 1½ to 2 ft..... | 2.50 |
| 2 to 3 ft..... | 3.00 |
| 3 to 4 ft..... | 4.00 |

P. floribunda. Nursery grown.

| | |
|------------------|------|
| 15 to 18 in..... | 6.00 |
| 18 to 24 in..... | 7.00 |

RHODODENDRONS

With the great scarcity of Hybrid Rhododendrons in the market we have confined our efforts to growing the best quality of native sorts which in many ways are equal to the Hybrid varieties, especially for massed and border plantings. Keep root protected from the sun and well moist at all times for best results.

Rhododendron carolinianum. Collected. Small, pinkish yellow blossoms and small leaves.

| | |
|-----------------|--------|
| 1 to 1½ ft..... | \$2.00 |
| 1½ to 2 ft..... | 3.00 |
| 2 to 3 ft..... | 4.00 |
| 3 to 4 ft..... | 5.00 |

R. catawbiense. A fine, native rhododendron. Rosy-purple flowers in late Spring and glossy dark green, oval-shaped leaves.

| | |
|-----------------|-------|
| 1½ to 2 ft..... | 3.00 |
| 2 to 2½ ft..... | 4.00 |
| 2½ to 3 ft..... | 5.00 |
| 3 to 4 ft..... | 7.00 |
| 4 to 5 ft..... | 10.00 |

R. catawbiense. Nursery grown specimens.

| | |
|-----------------|------|
| 1½ to 2 ft..... | 7.00 |
| 2 to 3 ft..... | 8.00 |

Pieris floribunda (Mountain Andromeda)

Rhododendron maximum (Rose Bay)

The best native variety; strong growing and very hardy, with very large, thick, glossy leaves and white and pink tinted flowers appearing late in June and July. The best one for mass effects.

| | Each |
|---------------------------|--------|
| 1½ to 2 ft..... | \$2.00 |
| 1½ to 2 ft. specimen..... | 2.50 |
| 2 to 3 ft..... | 2.50 |
| 2 to 3 ft., specimen..... | 3.50 |
| 3 to 4 ft..... | 4.00 |

R. maximum. Nursery-grown specimens.

| | |
|----------------|-----------------|
| 2 to 3 ft..... | 6.00 |
| 3 to 4 ft..... | 7.00 |
| 4 to 5 ft..... | \$8.00 to 10.00 |

YUCCA filamentosa (Common Yucca)

Creamy white flowers in 4 ft. spikes.

| | |
|------------------|------|
| Small..... | .50 |
| Medium..... | .75 |
| Large..... | 1.00 |
| Extra large..... | 1.50 |

Rhododendrons

Deciduous Trees

Trees, especially shade trees, perform a real service to man by the protection provided from the rays of the hot Summer sun. They also enhance property values and many varieties provide masses of colorful bloom upon the landscape during the Spring and Summer.

The suburban home is not complete today without the shelter and beauty provided by the shade trees. We list below practically all of the most useful and popular trees.

ACER. Maple

| | |
|--|--------|
| Acer dasycarpum (Silver Maple) Each | |
| 16 to 18 ft., 2-in. cal..... | \$4.50 |
| 2¼-in. cal..... | 5.00 |
| 2½-in. cal..... | 5.50 |
| 3-in. cal..... | 7.00 |
| 3½-in. cal..... | 9.00 |
| 5 to 6-in. cal..... | 25.00 |
| 7 to 8-in. cal..... | 55.00 |

| | |
|--|-------|
| A. dasycarpum wieri (Wier Maple). | |
| 8 to 10 ft., 1¼-in. cal..... | 2.00 |
| 10 to 12 ft., 1½-in. cal..... | 3.00 |
| 12 to 14 ft., 2-in. cal..... | 5.00 |
| 12 to 14 ft., 2½-in. cal..... | 7.50 |
| 14 to 16 ft., 3-in. cal..... | 10.00 |

| | |
|---------------------------------|------|
| A. ginnala (Amur Maple). | |
| 3 to 4 ft..... | 1.50 |
| 4 to 5 ft..... | 2.50 |
| 5 to 6 ft..... | 3.50 |

| | |
|--------------------------------|------|
| A. negundo (Box Elder). | |
| 2½-in. cal..... | 2.00 |
| 3-in. cal..... | 3.00 |

| | |
|---|-------|
| A. platanoides schwedleri (Schwedler Maple). | |
| 6 to 8 ft., 1 to 1¼-in. cal.... | 5.00 |
| 8 to 10 ft., 1¼ to 1½-in. cal.. | 6.00 |
| 12 to 14 ft., 1½ to 1¾ in. cal.. | 7.00 |
| 1¾ to 2-in. cal..... | 8.50 |
| 2 to 3-in. cal..... | 10.00 |

Acer platanoides (Norway Maple)

| | |
|--|--------|
| Acer platanoides (Norway Maple). Round-headed trees casting dense shade. Each | |
| 12 to 14 ft., 2¼ to 2½-in. cal.. | \$7.50 |
| 14 to 16 ft., 2½ to 3-in. cal.... | 10.00 |
| 3 to 3½-in. cal..... | 12.00 |
| 3½ to 4-in. cal..... | 15.00 |
| 4 to 5-in. cal..... | 25.00 |
| 5 to 6-in. cal..... | 35.00 |
| 6 to 7-in. cal..... | 50.00 |
| 7 to 8-in. cal..... | 75.00 |

| | |
|---|------|
| A. platanoides spaethi (Spaeth Maple). | |
| 9 to 12 ft., 1½ to 2-in. cal.... | 4.00 |
| 2 to 2½-in. cal..... | 5.50 |
| 2½ to 3 in. cal..... | 8.00 |

| | |
|--|-------|
| A. pseudoplatanus (Sycamore Maple). | |
| 8 to 10 ft., 1½ to 1¾-in. cal.. | 4.00 |
| 10 to 12 ft., 1¾ to 2-in. cal.... | 5.50 |
| 12 to 14 ft., 2 to 2½-in. cal.... | 7.00 |
| 14 to 16 ft., 2 to 3-in. cal..... | 10.00 |
| 14 to 16 ft., 3 to 4-in. cal..... | 15.00 |
| 16 to 18 ft., 4 to 5-in. cal..... | 20.00 |

| | |
|-----------------------------------|-------|
| A. rubrum (Red Maple). | |
| 10 to 12 ft., 3 to 3½-in. cal.... | 10.00 |
| 3½ to 4-in. cal..... | 15.00 |
| 4 to 4½-in. cal..... | 20.00 |

Acer dasycarpum wieri (Wier Maple)

ACER—Continued

| Acer saccharum (Sugar or Rock Maple). | Each |
|--|--------|
| 6 to 8 ft., 1 in. cal..... | \$3.00 |
| 8 to 10 ft., 1½ in. cal..... | 4.00 |
| 10 to 12 ft., 1½ to 2 in. cal..... | 5.50 |
| 12 to 14 ft., 2 to 2½ in. cal..... | 8.00 |
| 14 to 16 ft., 2½ to 3 in. cal..... | 15.00 |
| 16 to 18 ft., 3 to 4 in. cal..... | 20.00 |
| 4 to 5 in. cal..... | 35.00 |
| 5 to 6 in. cal..... | 50.00 |

Japanese Maples

| | |
|--|-------|
| A. palmatum (polymorphum) (Japanese Maple). Graceful shrub or small tree. Dense foliage. | |
| 6 to 7 ft..... | 12.00 |
| A. palmatum atropurpureum (Blood-leaf Japanese Maple). Leaves are dark purple, coarsely double serrate. | |
| 1 to 1½ ft..... | 5.00 |
| A. palmatum dissectum (Threadleaf Maple). Dark red leaves, deeply cut. | |
| 2½ to 3 ft..... | 20.00 |
| 3 to 4 ft..... | 25.00 |
| AESCULUS hippocastanum rubicunda (Red Horsechestnut). | |
| 8 to 10 ft., 1¾ to 2 in. cal..... | 4.00 |
| 10 to 12 ft., 2 to 2½ in. cal..... | 5.50 |
| 10 to 12 ft., 2½ to 3 in. cal..... | 7.00 |
| AILANTHUS glandulosa (Ailanthus). | |
| 3 to 4 ft..... | .50 |
| 4 to 6 ft..... | .75 |
| 6 to 8 ft..... | 1.00 |

Betula populifolia (Gray Birch)

Japanese Maple

| | |
|---|--------|
| AMYGDALUS persica (Flowering Peach). White, pink and red double flowers. | Each |

| 10 to 12 ft., 1½ to 2 in. cal..... | 4.00 |
| 12 to 14 ft., 2 to 2½ in. cal..... | 6.50 |
| 12 to 14 ft., 2½ to 3 in. cal..... | 10.00 |
| 3 to 4 in. cal..... | 15.00 |

| | |
|------------------------------|------|
| MAGNOLIA grandiflora. | |
| 6 ft..... | 5.50 |

| | |
|--|------|
| MALUS angustifolia rosea plena (Double-flowering Crab). Large, double, light pink blooms. | |
| 2 to 3 ft..... | 1.50 |
| 3 to 4 ft..... | 2.00 |
| 4 to 5 ft..... | 3.00 |
| 5 to 6 ft..... | 4.00 |
| 6 to 8 ft..... | 5.00 |

| | |
|---|------|
| M. atrosanguinea (Carmine Crab). | |
| 3 to 4 ft..... | 1.50 |
| 4 to 5 ft..... | 2.00 |
| 5 to 6 ft..... | 3.00 |
| 6 to 8 ft..... | 4.00 |

| | |
|---|------|
| M. baccata (Siberian Flowering Crab). One of the largest growing crab-apples, bearing snow-white blossoms which are followed by yellow fruits. | |
| 5 to 6 ft..... | 3.00 |
| 6 to 8 ft..... | 4.00 |

Morus alba pendula (Weeping Mulberry)

MALUS—Continued

Malus floribunda purpurea
(Purple Crab). Single crim-
son flowers.

| | Each |
|----------------|--------|
| 3 to 4 ft..... | \$1.50 |
| 4 to 5 ft..... | 2.00 |
| 5 to 6 ft..... | 3.00 |
| 6 to 8 ft..... | 4.00 |

M. ioensis plena (Bechtel Crab).

| | |
|----------------|------|
| 2 to 3 ft..... | 1.50 |
| 3 to 4 ft..... | 2.00 |
| 4 to 5 ft..... | 3.00 |
| 5 to 6 ft..... | 4.00 |
| 6 to 8 ft..... | 5.00 |

M. scheideckeri (Scheidecker
Double-flowering Crab).
Deep rosy-pink blossoms.

| | |
|----------------|------|
| 2 to 3 ft..... | 1.25 |
| 3 to 4 ft..... | 1.50 |

**M. spectabilis riversi rosea
plena** (Double Pink Chinese
Crab). Double blooms, deep
pink in color.

| | |
|----------------|------|
| 2 to 3 ft..... | 1.25 |
| 3 to 4 ft..... | 1.50 |
| 4 to 5 ft..... | 2.00 |
| 5 to 6 ft..... | 3.00 |
| 6 to 8 ft..... | 4.00 |

MORUS alba pendula (Weeping Mul-
berry).

| | Each |
|------------------------|-----------------|
| 3 to 4 ft., heavy..... | \$3.00 |
| 4 to 5 ft..... | 3.00 |
| 4 to 5 ft., heavy..... | 4.00 |
| 5 to 6 ft..... | 5.00 |
| 5 to 6 ft., heavy..... | 6.00 |
| 6 to 7 ft..... | \$6.00 to 10.00 |

Populus eugenie (Carolina Poplar)

Morus alba tatarica (Russian Mul-
berry). Black.

| | Each |
|----------------|--------|
| 5 to 6 ft..... | \$0.75 |
| 6 to 8 ft..... | 1.25 |

PAULOWNIA imperialis (Empress
Tree).

| | |
|-----------------|------|
| 5 to 6 ft..... | 1.50 |
| 6 to 7 ft..... | 2.00 |
| 7 to 8 ft..... | 2.50 |
| 8 to 10 ft..... | 4.00 |

PLATANUS orientalis (Plane Tree,
Sycamore).

| | |
|------------------------------------|-------|
| 5 to 6 ft., 1 to 1¼ in. cal..... | 2.50 |
| 6 to 7 ft., 1¼ to 1½ in. cal..... | 3.50 |

| 8 to 10 ft., 2 to 2½ in. cal..... | 7.00 |
| 10 ft., 2½ to 3 in. cal..... | 9.00 |
| 12 ft., 3 to 3½ in. cal..... | 12.00 |
| 12 to 14 ft., 3½ to 4 in. cal..... | 15.00 |

POPULUS bolleana (Bolleana Poplar).

| | |
|-------------------------------------|------|
| 8 to 10 ft., 1 in. cal..... | 1.50 |
| 10 to 12 ft., 1½ to 1¾ in. cal..... | 2.00 |

P. eugenei. (Carolina Poplar).

| | |
|------------------------------------|------|
| 8 to 10 ft., 1¼ to 1½ in. cal..... | 1.00 |
| 10 to 12 ft., 1½ to 2 in. cal..... | 1.50 |
| 12 to 14 ft., 2 to 2½ in. cal..... | 2.50 |

Platanus orientalis (Plane Tree)

PRIVET, TREE FORM

See page 32

*Quercus palustris* (Pin Oak)**PRUNUS cerasifera pissardi**
(Purpleleaf Plum).

| | Each |
|-------------------------|--------|
| 2 to 3 ft..... | \$0.75 |
| 3 to 4 ft..... | 1.25 |
| 4 to 5 ft..... | 1.75 |
| 5 to 6 ft..... | 3.00 |
| 6 to 8 ft..... | 4.00 |
| 8 to 10 ft., heavy..... | 6.00 |

P. lannesiana (Hitoye Cherry).
Fragrant, double white flowers.

| | |
|------------------|-------|
| 8 to 10 ft..... | 15.00 |
| 12 to 14 ft..... | 25.00 |

P. serrulata sachalinensis.
(Yama Cherry). Showy rose-pink blooms before the leaves.

| | |
|----------------|------|
| 3 to 4 ft..... | 1.50 |
| 4 to 5 ft..... | 2.00 |
| 5 to 6 ft..... | 3.00 |
| 6 to 7 ft..... | 5.00 |

P. subhirtella pendula (Shidarehigan Cherry, Japanese Weeping Pink-flowering Cherry). A weeping, rose-flowered variety.

| | |
|----------------|-------|
| 4 to 5 ft..... | 7.50 |
| 5 to 6 ft..... | 9.00 |
| 6 to 8 ft..... | 12.00 |

QUERCUS coccinea (Scarlet Oak).

| | Each |
|------------------------|--------|
| 6 ft., 1 in. cal..... | \$3.50 |
| 8 ft., 1½ in. cal..... | 5.00 |
| 10 ft., 2 in. cal..... | 7.00 |

| 6 to 8 ft. stem, 4-yr. heads..... | 5.00 |

*Ulmus americana* (American Elm)

Deciduous Shrubs

So-called because of their habit of dropping their foliage in late Fall and remaining dormant until Spring.

This class of plant material is one of the most important in adorning the home grounds. They are especially valued when grouped in masses about the borders of the lawn or to screen objectionable objects. A profusion of successive bloom may be had from early Spring until late Fall by the selection of certain varieties. Many varieties also help to enliven the Winter landscape by their bright colored berries. The possibilities of effective combinations are practically unlimited.

| | |
|--|--------|
| ACANTHOPANAX aralia pentaphyllum. Excellent for hedging; upright growth with thorny branches. | Each |
| 2 to 3 ft..... | \$0.50 |
| 3 to 4 ft..... | .75 |
| 4 to 5 ft..... | 1.00 |
| 5 to 6 ft..... | 1.50 |

ALTHAEA. See **Hibiscus**, page 24.

| | |
|---|------|
| AMORPHA fruticosa (Indigobush). Picturesque, tall-growing shrub with clustered racemes of violet-purple flowers. | |
| 2 to 3 ft..... | .50 |
| 3 to 4 ft..... | .75 |
| 4 to 5 ft..... | 1.00 |

| | |
|---|------|
| ARONIA arbutifolia (Red Chokeberry). Red berries, persisting until late Winter. Flowers white. | |
| 2 to 3 ft..... | .75 |
| 3 to 4 ft..... | 1.00 |
| 4 to 5 ft..... | 1.50 |
| 5 to 6 ft..... | 2.50 |

| | |
|--|--------|
| Aronia melanocarpa (nigra) (Black Chokeberry). Flowers white. | Each |
| 2 to 3 ft..... | \$0.75 |
| 3 to 4 ft..... | 1.00 |
| 4 to 5 ft..... | 1.50 |
| 5 to 6 ft..... | 2.50 |

| | |
|---|------|
| AZALEA arborescens (Fragrant White Azalea). Bears an abundance of fragrant, rose-tinted white flowers. | |
| 1 to 1½ ft..... | 1.75 |
| 1½ to 2 ft..... | 2.25 |

| | |
|--|------|
| A. calendulacea (Flame Azalea). All shades of yellow and brick red. | |
| 1½ to 2 ft..... | 3.00 |
| 2 to 3 ft..... | 4.00 |
| 3 to 4 ft..... | 5.00 |

| | |
|---|------|
| A. mollis (Chinese Azalea). Of dwarf, bushy habit; gorgeous orange and yellow flowers appearing in clusters on the ends of the shoots about the middle of May. | |
| 15 to 18 in..... | 3.00 |
| 1½ to 2 ft..... | 5.00 |
| 2 to 2½ ft..... | 6.00 |

AZALEA—Continued

AZALEA nudiflora (Pinxterbloom). Nursery-grown. Deep pink flowers in April and May. Suitable for moist places.

| | Each |
|-----------------|--------|
| 1 to 1½ ft..... | \$1.75 |
| 1½ to 2 ft..... | 2.25 |

A. nudiflora (Pinxterbloom). Collected.

| | |
|-----------------|------|
| 1½ to 2 ft..... | 1.25 |
| 2 to 3 ft..... | 1.50 |
| 3 to 4 ft..... | 2.00 |

A. pontica (Pontic Azalea). Brilliant flowers appearing in April in a variety of colors, including white, yellow, orange and red.

| | |
|------------------|------|
| 18 to 21 in..... | 4.00 |
| 21 to 24 in..... | 5.00 |

A. rosea (Downy Pinxterbloom). In May, just as the leaves appear, it bears, in profusion, very fragrant, deep pink flowers.

| | |
|-----------------|------|
| 1½ to 2 ft..... | 1.50 |
| 2 to 3 ft..... | 2.00 |
| 3 to 4 ft..... | 2.50 |

A. rustica. Pink and brick red.

| | |
|------------------|------|
| 18 to 21 in..... | 4.00 |
| 21 to 24 in..... | 5.00 |

A. viscosa (Swamp Azalea). Fragrant white flowers in July.

| | Each |
|-----------------|--------|
| 1 to 1½ ft..... | \$2.00 |
| 1½ to 2 ft..... | 2.50 |

BERBERIS thunbergi (Japanese Barberry).

| | |
|-----------------|------|
| 1 to 1½ ft..... | .35 |
| 1½ to 2 ft..... | .50 |
| 2 to 3 ft..... | .75 |
| 3 to 3½ ft..... | 1.00 |

See Hedge Plants for quantity rates, page 32.

Berberis thunbergi (Japanese Barberry)

Azalea nudiflora (Pinxterbloom)

BERBERIS thunbergi minor (Box Barberry). A dwarf form of Japanese Barberry.

| | Each |
|------------------|--------|
| 10 to 12 in..... | \$0.50 |
| 12 to 15 in..... | 1.00 |

BUDDLEIA davidi veitchiana (Veitch Butterflybush).

| | |
|-----------------|------|
| 1½ to 2 ft..... | .50 |
| 2 to 3 ft..... | .75 |
| 3 to 4 ft..... | 1.00 |
| 4 to 5 ft..... | 1.50 |

CALYCANTHUS floridus (Sweetshrub). Old-fashioned shrub with chocolate-colored blossoms. The crushed leaves have a peculiar fragrance.

| | |
|----------------|------|
| 2 to 3 ft..... | .75 |
| 3 to 4 ft..... | 1.00 |

C. praecox. See *Meratia praecox*, page 26.

CALLICARPA purpurea (Chinese Beautyberry). It bears clusters of bright purple berries in the early Fall.

| | |
|-----------------|------|
| 1½ to 2 ft..... | .60 |
| 2 to 3 ft..... | .75 |
| 3 to 4 ft..... | 1.00 |

CARAGANA arborescens (Siberian Peatree). Tall growing shrub with bright yellow flowers, resembling the sweet pea in shape. Blooms in May.

| | |
|-----------------------------|------|
| 3 to 4 ft..... | 1.25 |
| 4 to 5 ft..... | 1.75 |
| 7 to 8 ft., very heavy..... | 8.00 |

CHIONANTHUS virginica.

(White Fringe). Its large, dark green leaves and drooping panicles of white, fringe-like flowers in May and June are very attractive. Each

| | |
|----------------|--------|
| 2 to 3 ft..... | \$1.50 |
| 3 to 4 ft..... | 2.00 |
| 4 to 5 ft..... | 3.00 |
| 5 to 6 ft..... | 5.00 |

CLETHRA alnifolia (Summer-

sweet). A native of this section. It bears abundantly spikes of fragrant yellowish-white flowers in the late Summer.

| | |
|-----------------|------|
| 1½ to 2 ft..... | .50 |
| 2 to 3 ft..... | .75 |
| 3 to 4 ft..... | 1.00 |

CORNUS alba (Tatarian Dog-

wood). Red twigs, blue fruit, and white flowers. A brilliant shrub in early Spring when the twigs are intensely colored.

| | |
|----------------|------|
| 2 to 3 ft..... | .50 |
| 3 to 4 ft..... | .75 |
| 4 to 5 ft..... | 1.00 |
| 5 to 6 ft..... | 1.50 |

C. alba argento-marginata

(Silver-margin Dogwood). Red twigs; white-margined leaves.

| | |
|----------------|-------------|
| 2 to 3 ft..... | Each \$0.60 |
| 3 to 4 ft..... | .75 |
| 4 to 5 ft..... | 1.00 |
| 5 to 6 ft..... | 1.50 |

C. alba elegantissima (Silverblotch Dogwood).

| | |
|-----------------|------|
| 1½ to 2 ft..... | .50 |
| 2 to 2½ ft..... | .75 |
| 2½ to 3 ft..... | 1.00 |
| 3 to 4 ft..... | 1.50 |

C. alba spaethi (Spaeth Dogwood).

Yellow margined leaves.

| | |
|----------------|------|
| 2 to 3 ft..... | .75 |
| 3 to 4 ft..... | 1.00 |
| 4 to 5 ft..... | 1.50 |

C. sanguinea (Bloodtwig Dogwood).

Purple or dark blood-red twigs.

| | |
|----------------|------|
| 3 to 4 ft..... | .50 |
| 4 to 5 ft..... | 1.00 |
| 5 to 6 ft..... | 1.50 |

C. stolonifera flaviramea (Goldentwig Dogwood). Yellow twigs.

| | |
|----------------|------|
| 2 to 3 ft..... | .50 |
| 3 to 4 ft..... | .75 |
| 4 to 5 ft..... | 1.00 |

CORYLUS maxima purpurea (Purple Giant Filbert).

| | |
|----------------|------|
| 2 to 3 ft..... | 1.50 |
|----------------|------|

Chionanthus virginica (White Fringe)

CRATAEGUS (Hawthorn). The Haw-

thorns have many excellent qualities—handsome foliage, abundance of flowers in April and May, and a display of bright berries in the Fall. Fine for hedging or for single specimens.

C. cordata (Washington Hawthorn).

A very fine variety, reddish-tinted flowers in June and bearing clusters of bright red berries in the Fall.

| | |
|----------------|-------------|
| 3 to 4 ft..... | Each \$1.50 |
| 4 to 5 ft..... | 2.25 |
| 5 to 6 ft..... | 3.50 |

C. crusgalli (Cockspur Thorn). The

foliage of this variety turns to a brilliant orange and red color in the Fall. Large clusters of white flowers, red fruits.

| | |
|----------------|------|
| 3 to 4 ft..... | 1.50 |
| 4 to 5 ft..... | 2.25 |
| 5 to 6 ft..... | 3.50 |

C. monogyna rubro plena (Double Red Hawthorn).

| | |
|----------------|------|
| 5 to 6 ft..... | 3.50 |
| 6 to 8 ft..... | 5.00 |

CRATAEGUS—Continued

| | |
|--|--------|
| Crataegus ocyantha bicolor (Red-rim Hawthorn). Flowers white, double, edged with red. Each | |
| 3 to 4 ft..... | \$1.50 |
| 4 to 5 ft..... | 2.25 |
| 5 to 6 ft..... | 3.50 |

| | |
|--|------|
| C. ocyantha pauli (coccinea) . (Scarlet-fruited Thorn). White flowers in the Spring followed by scarlet fruits. | |
| 2 to 3 ft..... | 1.25 |
| 3 to 4 ft..... | 1.75 |
| 4 to 5 ft..... | 2.25 |
| 5 to 6 ft..... | 3.50 |
| 6 to 8 ft..... | 5.00 |

| | |
|---|------|
| C. ocyantha splendens (Paul's Double Scarlet Hawthorn). Large, double crimson flowers. | |
| 2 to 3 ft..... | 1.25 |
| 3 to 4 ft..... | 1.75 |
| 4 to 5 ft..... | 2.25 |
| 5 to 6 ft..... | 3.50 |
| 6 to 8 ft..... | 5.00 |

| | |
|---|------|
| CYDONIA japonica rosea plena (Double Pink-flowering Quince). | |
| 1 to 1½ ft..... | .50 |
| 1½ to 2 ft..... | .75 |
| 2 to 3 ft..... | 1.00 |

| | |
|---|--------|
| C. japonica rubra grandiflora (Great Crimson-flowering Quince). Deep crimson blooms of large size. Each | |
| 1 to 1½ ft..... | \$0.50 |
| 1½ to 2 ft..... | .75 |
| 2 to 3 ft..... | 1.00 |

CYTISUS laburnum. See **Laburnum**, page 25.

DESMODIUM penduliflorum.
See **Lespedeza formosa**,
page 26.

| | |
|---|-----|
| DEUTZIA gracilis (Slender Deutzia). In May this shrub is completely covered with small, white, delicate flowers. Excellent for the border. | |
| 10 to 12 in..... | .35 |
| 1 to 1½ ft..... | .50 |
| 1½ to 2 ft..... | .75 |

| | |
|--|------|
| D. lemoinei (Lemoine Deutzia). An early bloomer; pure white flowers borne on upright stems. | |
| 1 to 1½ ft..... | .50 |
| 1½ to 2 ft..... | .60 |
| 2 to 3 ft..... | .75 |
| 3 to 4 ft..... | 1.00 |
| 4 to 5 ft..... | 1.50 |
| 5 to 6 ft..... | 2.00 |

| | |
|---|--------|
| Deutzia scabra candidissima (Snowflake Deutzia). Double flowers, pure white. Each | |
| 2 to 3 ft..... | \$0.35 |
| 3 to 4 ft..... | .50 |
| 4 to 5 ft..... | .75 |
| 5 to 6 ft..... | 1.25 |
| 6 to 7 ft..... | 2.00 |

| | |
|---|-----|
| D. scabra crenata flore pleno (Double Rose Deutzia). Flowers double, white, tinged rose outside. | |
| 2 to 3 ft..... | .35 |
| 3 to 4 ft..... | .50 |
| 4 to 5 ft..... | .75 |

| | |
|---|----------------|
| D. scabra, Pride of Rochester. Flowers very double, tinged with pink on the outside of the petals. | |
| 2 to 3 ft..... | .35 |
| 3 to 4 ft..... | .50 |
| 4 to 5 ft..... | .75 |
| 5 to 6 ft..... | 1.25 |
| 6 to 7 ft..... | 2.00 |
| 8 to 10 ft., very heavy..... | \$5.00 to 7.00 |

| | |
|---|------|
| ELAEAGNUS longipes (Cherry Elaeagnus). Flowers yellow. Leaves silver tinted on the underside. Very ornamental, reddish-brown bark in Winter, and bright yellow flowers in June. Fruits edible. | |
| 1½ to 2 ft..... | .50 |
| 2 to 3 ft..... | .75 |
| 3 to 4 ft..... | 1.00 |
| 4 to 5 ft..... | 1.50 |

Deutzia scabra, Pride of Rochester

- EUONYMUS alatus** (Winged Euonymus). Corky winged bark; yellowish flowers; purplish fruits. Each
- | | |
|-----------------|--------|
| 1½ to 2 ft..... | \$1.25 |
| 2 to 3 ft..... | 1.75 |
| 3 to 4 ft..... | 2.50 |

- E. americanus** (Brook Euonymus). In the Fall, the conspicuous, crimson, strawberry-shaped seed pods burst, showing the bright red seeds within.
- | | |
|----------------|------|
| 2 to 3 ft..... | .75 |
| 3 to 4 ft..... | 1.00 |
| 4 to 5 ft..... | 1.50 |
| 5 to 6 ft..... | 2.50 |

- E. europaeus** (European Burningbush). Nodding clusters of yellowish flowers; rose-pink lobed fruits.
- | | |
|----------------|------|
| 4 to 5 ft..... | 1.50 |
| 5 to 6 ft..... | 2.50 |
| 6 to 7 ft..... | 3.50 |

- EXOCHORDA grandiflora** (Pearlbush). Covered with fragrant clusters of pure white flowers in the early Spring. Each
- | | |
|-----------------|--------|
| 1 to 1½ ft..... | \$0.40 |
| 1½ to 2 ft..... | .60 |
| 2 to 3 ft..... | .75 |
| 3 to 4 ft..... | 1.00 |

- FORSYTHIA intermedia** (Border Forsythia). Yellow flowers.
- | | |
|----------------|------|
| 2 to 3 ft..... | .35 |
| 3 to 4 ft..... | .50 |
| 4 to 5 ft..... | .75 |
| 5 to 6 ft..... | 1.25 |

- F. suspensa** (Weeping Forsythia). Yellow flowers.
- | | |
|----------------|------|
| 2 to 3 ft..... | .40 |
| 3 to 4 ft..... | .60 |
| 4 to 5 ft..... | .75 |
| 5 to 6 ft..... | 1.25 |

Exochorda grandiflora (Pearlbush)

- Forsythia suspensa fortunei** (Fortune Forsythia). Yellow flowers. Each
- | | |
|----------------|--------|
| 2 to 3 ft..... | \$0.35 |
| 3 to 4 ft..... | .50 |
| 4 to 5 ft..... | .75 |
| 5 to 6 ft..... | 1.25 |

- F. viridissima** (Greenstem Forsythia). Yellow flowers.
- | | |
|----------------|------|
| 2 to 3 ft..... | .35 |
| 3 to 4 ft..... | .50 |
| 4 to 5 ft..... | .75 |
| 5 to 6 ft..... | 1.25 |

- HAMAMELIS virginiana** (Witch-hazel)
- | | |
|----------------|------|
| 2 to 3 ft..... | .75 |
| 3 to 4 ft..... | 1.00 |
| 4 to 5 ft..... | 1.25 |
| 5 to 6 ft..... | 1.75 |

- HIBISCUS syriacus** (Rose of Sharon). Single and double-flowering, in red, pink, white and variegated foliage.
- | | |
|-----------------|------|
| 1½ to 2 ft..... | .35 |
| 2 to 3 ft..... | .50 |
| 3 to 4 ft..... | .75 |
| 4 to 5 ft..... | 1.25 |
| 5 to 6 ft..... | 2.00 |

- H. syriacus amplissimus**. Deep purplish-pink.
- | | |
|-----------------|-----|
| 1½ to 2 ft..... | .50 |
| 2 to 3 ft..... | .70 |

- H. syriacus anemonaeflorus**. Improved variety of double pink.
- | | |
|-----------------|-----|
| 1½ to 2 ft..... | .50 |
| 2 to 3 ft..... | .70 |

Forsythia intermedia (Border Forsythia)

HIBISCUS—Continued

Hibiscus syriacus, Jeanne d'Arc. A double white variety of the better sorts. Each
1½ to 2 ft. \$0.50
2 to 3 ft.70

H. syriacus purpureus semiplena. Good variety of semi-double purple.
1½ to 2 ft.50
2 to 3 ft.70

H. syriacus, Snowstorm (totus albus). One of the finest single white varieties.
1½ to 2 ft.50
2 to 3 ft.70
3 to 4 ft. 1.00

HYDRANGEA arborescens grandiflora (Snowhill). Immense, pure white blooms coming in July and August.
1½ to 2 ft.35
2 to 3 ft.50
3 to 4 ft.75

H. opuloides, Otaksa (Otaksa Hydrangea). Pink and blue flowering, half hardy sort; fine for tubs and pots for forcing. Tops winterkill at 22 degrees Fahr. Medium to large. Tubs extra. \$1.00 to 15.00

H. otaksa. French varieties. An improvement over the common Otaksa varieties. Best suited for growing in tubs. Each
2-yr. \$0.75
3-yr. 1.00

H. paniculata (Panicle Hydrangea). Very pleasing shrub blooming in September; single white blossoms turning to pink.
2 to 3 ft.50
3 to 4 ft.75
4 to 5 ft. 1.00

H. paniculata grandiflora (Pecgee). The most showy garden shrub. Huge, conical-shaped blooms in the late Summer and early Fall, pure white changing to dark pink.
1 to 2 ft.35
2 to 3 ft.50
3 to 4 ft.75
4 to 5 ft. 1.25

H. paniculata grandiflora. Standards, pruned to single stems.
2 to 3 ft. 1.25
3 to 4 ft. 1.50
4 to 5 ft. 2.00

Hydrangea paniculata grandiflora (Pecgee)

ILEX verticillata (Winterberry). Bright red berries persisting till late Winter. Each
1½ to 2 ft. \$0.50
2 to 3 ft.75
3 to 4 ft. 1.00

KERRIA japonica (Single-flowering Japanese Kerria). A splendor, green-branched shrub, with bright yellow flowers from June to October.
1½ to 2 ft.50
2 to 3 ft.75
3 to 4 ft. 1.00

K. japonica flore pleno (Double-flowering Kerria). More commonly grown than the single-flowered sorts.
2 to 3 ft.75
3 to 4 ft. 1.00

LABURNUM vulgare (Goldenchain). A small tree bearing long, pendant racemes of yellow flowers in the early Summer.
3 to 4 ft. 1.00
4 to 5 ft. 1.50
5 to 6 ft. 2.00
6 to 7 ft. 3.00

| | |
|---|--------|
| LESPEDEZA formosa (Purple Bushclover). | Each |
| 2 to 3 ft..... | \$0.50 |
| 3 to 4 ft..... | .75 |
| 4 to 5 ft..... | 1.25 |

| | |
|--|--------|
| LIGUSTRUM ibota (Ibota Privet). Gracefully arching branches; white flowers in nodding clusters. | |
| 2 to 3 ft..... | \$0.35 |
| 3 to 4 ft..... | .50 |

| | |
|--|-----|
| L. ibota regelianum (Regel Privet). | |
| 1½ to 2 ft..... | .40 |
| 2 to 3 ft..... | .60 |
| 3 to 4 ft..... | .75 |

| | |
|---|--|
| L. ovalifolium (California Privet). See Hedge Plants , page 32. | |
|---|--|

| | |
|--|------|
| L. ovalifolium variegatum (Golden California Privet). | |
| 1 to 1½ ft..... | .50 |
| 1½ to 2 ft..... | .75 |
| 2 to 2½ ft..... | 1.25 |

| | |
|---|--------|
| LONICERA fragrantissima (Winter Honeysuckle). Very early; fragrant white flowers, not showy. | Each |
| 2 to 3 ft..... | \$0.40 |
| 3 to 4 ft..... | .60 |
| 4 to 5 ft..... | .75 |

| | |
|---|------|
| L. morrowi (Morrow Honeysuckle). Yellowish white blossoms in early Spring; bright red berries in the Summer. | |
| 2 to 3 ft..... | .50 |
| 3 to 4 ft..... | .75 |
| 4 to 5 ft..... | 1.00 |
| 5 to 6 ft..... | 1.50 |

| | |
|---|------|
| L. ruprechtiana (Manchurian Honeysuckle). White flowers, red, sometimes yellow fruits. | |
| 1 to 2 ft..... | .35 |
| 2 to 3 ft..... | .60 |
| 3 to 4 ft..... | 1.00 |

| | |
|--|------|
| L. tatarica grandiflora (Bride Honeysuckle). Large, pink flowers, edged lighter pink. | |
| 2 to 3 ft..... | .35 |
| 3 to 4 ft..... | .50 |
| 4 to 5 ft..... | .75 |
| 5 to 6 ft..... | 1.25 |

| | |
|---|------|
| L. tatarica rosea (Rosy Tatarian Honeysuckle). An abundance of bright, rosy pink flowers; in the late Summer and in Fall orange-scarlet berries. | |
| 2 to 3 ft..... | .35 |
| 3 to 4 ft..... | .50 |
| 4 to 5 ft..... | .75 |
| 5 to 6 ft..... | 1.25 |

*Ligustrum regelianum* (Regel Privet).

| | |
|---|--------|
| Lonicera tatarica alba (White Tatarian Honeysuckle). | Each |
| 2 to 3 ft..... | \$0.35 |
| 3 to 4 ft..... | .50 |
| 4 to 5 ft..... | .75 |
| 5 to 6 ft..... | 1.25 |

| | |
|---|-----|
| MERATIA praecox (Wintersweet). Very fragrant, yellow flowers in early Spring before the leaves come. | |
| 2 to 3 ft..... | .50 |
| 3 to 4 ft..... | .75 |

| | |
|---|------|
| MYRICA carolinensis (Northern Bayberry). | |
| 1½ to 2 ft..... | .60 |
| 2 to 3 ft..... | .85 |
| 3 to 4 ft..... | 1.25 |

| | |
|--|------|
| OXYDENDRUM arboreum (Sourwood). | |
| 1½ to 2 ft..... | .75 |
| 2 to 3 ft..... | 1.25 |
| 3 to 4 ft..... | 2.00 |
| 4 to 5 ft..... | 2.50 |

| | |
|---|------|
| PHILADELPHUS, Avalanche (Mock-orange). A shrub with graceful, slender branches bearing a profusion of snowy-white flowers. | |
| 2 to 3 ft..... | .50 |
| 3 to 4 ft..... | .75 |
| 6 to 8 ft., heavy..... | 2.00 |

PHILADELPHUS—Continued

Philadelphus coronarius (Sweet Mockorange. This is a very valuable and popular variety, particularly attractive because of its intensely fragrant blossoms and luxuriant foliage.

| | Each |
|----------------|--------|
| 2 to 3 ft..... | \$0.40 |
| 3 to 4 ft..... | .50 |
| 4 to 5 ft..... | .75 |
| 5 to 6 ft..... | 1.25 |
| 6 to 7 ft..... | 2.00 |

P. coronarius aureus (Golden Mockorange). A dwarf variety with bright yellow leaves retaining their color throughout the season.

| | |
|-----------------|------|
| 1 to 1½ ft..... | .50 |
| 1½ to 2 ft..... | .75 |
| 2 to 2½ ft..... | 1.00 |

P. grandiflorus (Big Scentless Mockorange). Large white flowers.

| | |
|----------------|------|
| 2 to 3 ft..... | .35 |
| 3 to 4 ft..... | .50 |
| 4 to 5 ft..... | .75 |
| 5 to 6 ft..... | 1.00 |
| 6 to 7 ft..... | 1.50 |

P. virginale. Very large, slightly fragrant flowers; often 2 in. in diameter. Blooms all Summer; good cut flower.

| | |
|-----------------|------|
| 1 to 1½ ft..... | .60 |
| 1½ to 2 ft..... | .75 |
| 2 to 3 ft..... | 1.00 |

Philadelphus coronarius
(Sweet Mockorange)

PHYSOCARPUS opulifolius (*Spiraea opulifolia*) (Ninebark). Fragrant, white flowers; red fruits.

| | Each |
|----------------|--------|
| 2 to 3 ft..... | \$0.50 |
| 3 to 4 ft..... | .60 |
| 4 to 5 ft..... | .75 |
| 5 to 6 ft..... | 1.00 |

P. opulifolius luteus (Goldleaf Ninebark). Foliage bright yellow changing to bronzy-yellow.

| | |
|----------------|-----|
| 2 to 3 ft..... | .50 |
| 3 to 4 ft..... | .60 |

PRUNUS maritima (Beach Plum). Pink flowers; edible fruits.

| | |
|----------------|------|
| 2 to 3 ft..... | .75 |
| 3 to 4 ft..... | 1.00 |

P. pissardi. See **Deciduous Trees.**

P. triloba (Flowering Plum). Pink double flowers.

| | |
|----------------|------|
| 2 to 3 ft..... | 1.25 |
| 3 to 4 ft..... | 1.50 |
| 4 to 5 ft..... | 2.00 |

RHODOTYPOS kerrioides (Jetbead). White flowers; shiny, jet-black fruits.

| | |
|-----------------|-----|
| 1½ to 2 ft..... | .35 |
| 2 to 3 ft..... | .50 |
| 3 to 4 ft..... | .75 |

RHUS canadensis (Fragrant Sumac). Bright green leaves; yellow flowers; red fruit.

| | |
|----------------|------|
| 2 to 3 ft..... | .75 |
| 3 to 4 ft..... | 1.00 |
| 4 to 5 ft..... | 1.25 |

R. copallina (Shining Sumac). Lustrous green leaves, fading ruddy brown in Fall.

| | |
|----------------|------|
| 2 to 3 ft..... | .50 |
| 3 to 4 ft..... | .75 |
| 4 to 5 ft..... | 1.00 |

R. cotinus (Smoke Tree). Pale purple plumose flowers, giving a smoky effect.

| | |
|----------------|------|
| 2 to 3 ft..... | 1.00 |
| 3 to 4 ft..... | 1.50 |
| 4 to 5 ft..... | 2.00 |
| 5 to 6 ft..... | 2.50 |

R. glabra (Smooth Sumac). Dark green leaves, white underneath, that become brilliant scarlet in Fall.

| | |
|----------------|------|
| 3 to 4 ft..... | .75 |
| 4 to 5 ft..... | 1.00 |

R. typhina laciniata (Shredded Sumac). Fern-like leaves that assume brilliant Fall colors; favors dry soils.

| | |
|----------------|------|
| 2 to 3 ft..... | .50 |
| 3 to 4 ft..... | .75 |
| 4 to 5 ft..... | 1.00 |
| 5 to 6 ft..... | 1.25 |

Spiraea vanhouttei (*Vanhoutte Spirea*) See page 29

ROSA rugosa. See **Roses**, page 35.
Hedge Plants, page 32.

| | |
|---|--------|
| SAMBUCUS canadensis (American Elder). Tall shrub with large clusters of white flowers. | Each |
| 2 to 3 ft..... | \$0.35 |
| 3 to 4 ft..... | .50 |
| 4 to 5 ft..... | .75 |
| 5 to 6 ft..... | 1.25 |

| | |
|--|------|
| S. nigra aurea (Golden European Elder). | |
| 2 to 3 ft..... | .50 |
| 3 to 4 ft..... | .75 |
| 4 to 5 ft..... | 1.00 |
| 5 to 6 ft..... | 1.25 |

| | |
|---|-----|
| SPIRAEA arguta (Garland Spirea). Of slender, elegant habit. Branches covered with snow-white flowers in May. | |
| 1½ to 2 ft..... | .35 |
| 2 to 3 ft..... | .50 |

| | |
|---|------|
| S. bumalda (Bumalda Spirea). Vigorous grower bearing an abundance of pink flowers in Midsummer and Fall. | |
| 1 to 1½ ft..... | .35 |

| 1½ to 2 ft..... | .75 |
| 2 to 3 ft..... | 1.00 |
| 3 to 4 ft..... | 1.25 |
| 4 to 5 ft..... | 2.00 |

SPIRAEA—Continued

Spiraea vanhouttei (Vanhoutte Spirea). The most popular of all the Spireas. In May, the branches are covered with masses of pure white flowers. **Each**

| | |
|---------------------------|--------|
| 1½ to 2 ft..... | \$0.35 |
| 2 to 3 ft..... | .50 |
| 3 to 4 ft..... | .75 |
| 4 to 5 ft..... | 1.25 |
| 5 to 6 ft..... | 2.00 |
| 6 to 7 ft. specimens..... | 3.50 |

STEPHANANDRA flexuosa

(Cut-leaf Stephanandra). Drooping, arching branches; flowers white, in soft, feathery, paniced racemes.

| | |
|-----------------|-----|
| 1½ to 2 ft..... | .35 |
| 2 to 3 ft..... | .50 |
| 3 to 4 ft..... | .75 |

SYMPHORICARPOS racemosus

(Snowberry). Produces large white berries in great abundance in the Fall.

| | |
|-----------------|-----|
| 1½ to 2 ft..... | .35 |
| 2 to 3 ft..... | .50 |
| 3 to 4 ft..... | .75 |

Syringa vulgaris (Common Lilac) See page 30

Symphoricarpos vulgaris (Coralberry). The clusters of small red berries which are borne in the Fall sometimes remain all through the Winter.

| | Each |
|-----------------|-------------|
| 1½ to 2 ft..... | \$0.35 |
| 2 to 3 ft..... | .50 |
| 3 to 4 ft..... | .75 |

SYRINGA (Lilac). There are no better shrubs than the old-fashioned Lilacs. The many excellent varieties in purple, white, and shades of red, all produce large spikes of showy, fragrant flowers in late Spring.

S. persica (Persian Lilac). Graceful shrub with slender branches; pale lilac single flowers in broad panicles.

| | |
|----------------|------|
| 2 to 3 ft..... | .75 |
| 3 to 4 ft..... | 1.00 |

S. villosa (Late Lilac). Very fragrant pink flowers, borne by a vigorous growing bush, with bright green leaves. It is the last lilac to bloom.

| | |
|----------------|------|
| 2 to 3 ft..... | .60 |
| 3 to 4 ft..... | .80 |
| 4 to 5 ft..... | 1.00 |
| 5 to 6 ft..... | 1.50 |

Symphoricarpos racemosus (Snowberry)

*SYRINGA—Continued***Syringa vulgaris** (Common Lilac). Each

| | |
|---------------------------------------|--------|
| 1½ to 2 ft..... | \$0.50 |
| 2 to 3 ft..... | .75 |
| 3 to 4 ft..... | 1.00 |

| 2 to 3 ft..... | .75 |
| 3 to 4 ft..... | 1.00 |
| 4 to 5 ft..... | 1.25 |

S. vulgaris, Double White.

| | |
|----------------|------|
| 2 to 3 ft..... | .75 |
| 3 to 4 ft..... | 1.00 |
| 4 to 5 ft..... | 1.25 |

Named Varieties of Syringa vulgaris**Syringa, Charles the Tenth.**

Reddish-purple; single.

Each

| | |
|---------------------------|--------|
| 1 to 1½ ft..... | \$0.50 |
| 2 to 3 ft..... | .75 |
| 3 to 4 ft..... | 1.00 |
| 4 to 5 ft., standard..... | 1.50 |
| 5 to 6 ft., standard..... | 2.50 |

S. Marie Legraye. Single; white.

| | |
|---------------------------|------|
| 1 to 1½ ft..... | .50 |
| 2 to 3 ft..... | 1.00 |
| 3 to 4 ft..... | 1.25 |
| 3 to 4 ft., standard..... | 1.25 |
| 4 to 5 ft., standard..... | 1.50 |

S. Mme. Lemoine. Beautiful trusses of pure white, double flowers.

| | |
|-----------------|------|
| 1 to 1½ ft..... | .50 |
| 2 to 3 ft..... | .75 |
| 3 to 4 ft..... | 1.25 |

S. Paul Hariot. Double, violet-red flowers, silvery reverse.

| | |
|-----------------|------|
| 1 to 1½ ft..... | .50 |
| 1½ to 2 ft..... | .75 |
| 2 to 3 ft..... | 1.00 |

Syringa, Souvenir de Louis Spaeth.

Immense trusses of single, deep rosy purple flowers.

Each

| | |
|-----------------|--------|
| 1 to 1½ ft..... | \$0.50 |
| 2 to 3 ft..... | 1.00 |
| 3 to 4 ft..... | 1.25 |

TAMARIX africana (African Tamarix). Panicles of pink flowers.

| | |
|----------------|-----|
| 2 to 3 ft..... | .35 |
| 3 to 4 ft..... | .50 |
| 4 to 5 ft..... | .75 |

VACCINIUM corymbosum (Highbush Blueberry). Blue-black, edible fruits; highly colored Fall foliage.

| | |
|----------------|------|
| 2 to 3 ft..... | 1.50 |
| 3 to 4 ft..... | 2.50 |

VIBURNUM acerifolium (Mapleleaf

Snowball). Grows well in the shade. Flat heads of white flowers in May and purple berries in the Fall.

| | |
|----------------|------|
| 2 to 3 ft..... | .75 |
| 3 to 4 ft..... | 1.00 |
| 4 to 5 ft..... | 1.25 |
| 5 to 6 ft..... | 1.50 |

V. cassinoides (Withe-rod). White flowers in June, blue berries in Fall.

| | |
|----------------|------|
| 2 to 3 ft..... | .75 |
| 3 to 4 ft..... | 1.00 |
| 4 to 5 ft..... | 1.25 |

*Syringa, Charles the Tenth*

*VIBURNUM—Continued***Viburnum dentatum** (Arrowwood).

White flowers in June, followed by scarlet berries lasting till Winter.

Foliage purple and red in Fall.

Each

| | |
|----------------|--------|
| 2 to 3 ft..... | \$0.75 |
| 3 to 4 ft..... | 1.00 |
| 4 to 5 ft..... | 1.25 |

V. lantana (Wayfaring Tree). Soft, heavy leaves; large, flat-topped clusters of white flowers. Red fruits that turn black.

| | |
|----------------|------|
| 2 to 3 ft..... | .75 |
| 3 to 4 ft..... | 1.00 |

V. lentago (Nannyberry). Yellowish white flowers; blue-black fruit.

| | |
|----------------|------|
| 2 to 3 ft..... | .50 |
| 3 to 4 ft..... | .75 |
| 4 to 5 ft..... | 1.00 |
| 5 to 6 ft..... | 1.25 |

V. opulus (European Cranberrybush). White flowers, followed by large, Cranberry-like fruits that persist all Winter. Fine for color in the Winter garden and for birds.

| | |
|----------------|------|
| 2 to 3 ft..... | .50 |
| 3 to 4 ft..... | .75 |
| 4 to 5 ft..... | 1.25 |
| 5 to 6 ft..... | 2.00 |

V. opulus sterile (Snowball).

| | |
|-----------------|------|
| 1½ to 2 ft..... | .60 |
| 2 to 3 ft..... | .75 |
| 3 to 4 ft..... | 1.00 |
| 4 to 5 ft..... | 1.25 |
| 5 to 6 ft..... | 1.50 |

Viburnum prunifolium (Blackhaw).

Lustrous green foliage; white flowers bluish-black fruits.

Each

| | |
|----------------|--------|
| 2 to 3 ft..... | \$0.75 |
| 3 to 4 ft..... | 1.00 |
| 4 to 5 ft..... | 1.25 |

V. tomentosum (Doublefile Viburnum). Dark green leaves with bronzy edges; flat-topped clusters of white flowers; red berries turning to black.

| | |
|-----------------------------|------|
| 2 to 3 ft..... | .50 |

| 5 to 6 ft., very heavy..... | 2.50 |

V. tomentosum plicatum (Japanese Snowball). Solid, round flowers in June. An excellent shrub in every respect.

| | |
|-----------------------------|------|
| 2 to 3 ft..... | .85 |
| 3 to 4 ft..... | 1.00 |
| 4 to 5 ft..... | 1.25 |
| 4 to 5 ft., very heavy..... | 1.50 |
| 5 to 6 ft., very heavy..... | 2.50 |

V. tomentosum plicatum (Standard or Tree Form).

| | |
|-----------------|------|
| 3-ft. stem..... | 1.50 |
|-----------------|------|

WEIGELA. In red-, white- and pink-flowering varieties. Prices as below except where otherwise noted.

| | |
|----------------|------|
| 2 to 3 ft..... | .40 |
| 3 to 4 ft..... | .60 |
| 4 to 5 ft..... | 1.00 |

W. amabilis alba. Flowers white, changing to light pink.

Viburnum tomentosum plicatum (Japanese Snowball)

WEIGELA—Continued

- Weigela candida.** Pure white flowers.
- W. floribunda** (Crimson Weigela). Brownish crimson in bud, opening brilliant crimson.
- W. hybrida desboisi.** Dark crimson flowers.

| | |
|----------------|--------|
| | Each |
| 1 to 2 ft..... | \$0.35 |
| 2 to 3 ft..... | .50 |
- W. hybrida, Eva Rathke.** Deep carmine-red flowers; profuse bloomer.

| | |
|----------------|------|
| 2 to 3 ft..... | .75 |
| 3 to 4 ft..... | 1.00 |
- W. hybrida nana variegata** (Dwarf Variegated Weigela). Flowers nearly white, foliage variegated with white.

| | |
|----------------|------|
| 2 to 3 ft..... | .75 |
| 3 to 4 ft..... | 1.00 |
| 4 to 5 ft..... | 1.25 |
- W. rosea** (Pink Weigela). Pale or deep rose blooms. Tall growing shrub.

Weigela rosea (Pink Weigela)

Hedge Plants

The average layman usually thinks of hedges in terms of the common clipped Privet, but should we look further into the matter of hedges, we shall find that there is an abundance of fine material, formal and informal, for the evergreen and deciduous hedges.

Hedges usually serve a purpose and we should select the material that will best serve that purpose. Since density and compactness are required of most hedges, one should not be afraid of pruning back rather severely while the plants are growing and then allow them to grow as wanted.

- BERBERIS thunbergi** (Japanese Barberry). Attractive shaped plant; yellow flowers in early Spring; bright red fruit persisting all Winter.

| | |
|------------------|---------|
| | 100 |
| 12 to 15 in..... | \$20.00 |
| 15 to 18 in..... | 30.00 |
| 1½ to 2 ft..... | 35.00 |
| 2 to 2½ ft..... | 45.00 |

- LIGUSTRUM lodense.** Dwarf Privet.

| | |
|--------------------------|-------|
| 2-year., heavy, 25c..... | 20.00 |
|--------------------------|-------|

- L. ovalifolium** (California Privet). The most popular hedge plant. Dark green leaves that persist until heavy freezing weather comes.

| | | |
|---|--------------------|---------|
| | 100 | 1000 |
| 1 to 1½ ft., 1 yr..... | \$6.00 | \$55.00 |
| 1½ to 2 ft., 1 yr..... | 8.50 | 80.00 |
| 2 to 3 ft., 2-yr..... | 10.00 | 90.00 |
| 2½ to 3 ft., 2 yr., extra..... | 15.00 | 135.00 |
| 3 to 4 ft., 2-yr. clumps..... | 20.00 | 150.00 |
| 3 to 4 ft., 4-yr. clumps, very heavy..... | Each \$1.00, 75.00 | 600.00 |
| 4 to 5 ft., 6-yr. clumps..... | Each \$1.00 | |
| 5 to 6 ft., 6-yr. clumps..... | Each \$1.50 | |

- Ligustrum ovalifolium** (Sheared Balls).

| | | | |
|--|--------|---------|----------|
| | Each | Doz. | 100 |
| 12 to 15 in..... | \$1.50 | \$15.00 | \$100.00 |
| 15 to 18 in..... | 2.00 | 20.00 | 135.00 |
| 18 to 24 in..... | 2.50 | 25.00 | 150.00 |
| Pyramid specimens, 6 to 7 ft..... | 10.00 | | |
| Standard specimens, full heads, 4 to 5 ft. | 3.50 | | |

- ROSA rugosa** (Rugosa Rose). A most attractive hedge plant with large, single flowers, 3 in. across, followed by big, bright red, showy fruits that remain all Winter. When set close together the very spiny stems present a barrier few animals care to pass. We have two varieties:

- R. rugosa alba.** Pure white flowers.
- R. rubra.** Red.

| | |
|-----------------|---------|
| | 100 |
| 1 to 1½ ft..... | \$35.00 |
| 1½ to 2 ft..... | 45.00 |
| 2 to 2½ ft..... | 50.00 |
| 2½ to 3 ft..... | 75.00 |

Roses

Under this subject we list practically all the popular varieties of Tea and Hybrid Teas, Perpetuals, Climbing, Baby Ramblers and Rugosa Roses. Any landscape would hardly be complete without the use of some of these Roses. For beautiful bloom from June to frost plant the Hybrid Tea varieties. For large bushes adorned in the Spring by a profusion of flowers, plant the Perpetual varieties. As a climbing plant for the trellis, garden arches and over banks and walls, nothing surpasses the climbing Roses. The Rugosa and its hybrids are valued for massed effects in the general landscape and for rich deep green flowering hedges.

HYBRID PERPETUAL ROSES

2-year plants, \$1.00 each, \$10.00 per doz.

Coquette des Alpes. Blush white.

Frau Karl Druschki. Very large, pure white flowers. Blooms all Summer if kept growing.

General Jacqueminot. Large, fragrant scarlet blooms. A great favorite.

George Arends. Pink; large and very fragrant. Profuse bloomer and vigorous grower.

George Dickson. A dark crimson rose; fine, vigorous grower.

Magna Charta. Extra large, very double. A profuse bloomer with reddish-pink blossoms.

Margaret Dickson. One of the best. White with rosy, flesh-colored center. Compact, vigorous grower.

Mrs. John Laing. Very fragrant blooms of soft, delicate pink color, with a satin tinge. One of the finest of this class.

Mrs. R. G. Sharman-Crawford. Deep rosy-pink, perfectly formed, fragrant blooms.

Paul Neyron. Very large, fragrant, clear pink blooms. Vigorous, hardy plant.

HYBRID TEA ROSES

2-year plants, \$1.00 each, \$10.00 per doz.

Betty. Long, coppery buds, very fragrant. Vigorous plant and a continuous bloomer.

Columbia. Pink, vigorous grower.

Dean Hole. Silvery carmine, tinted salmon; fragrant.

Duchess of Wellington. Saffron-yellow, stained rich crimson.

Etoile de France. Soft velvety crimson. One of the best Roses in its color.

General MacArthur. Bright crimson; very fragrant.

Gruss an Teplitz. A free, strong grower, producing throughout the season a profusion of rich scarlet blooms.

Hadley. One of the best of the new varieties. Color a deep crimson.

Jonkheer J. L. Mock. Silvery flesh-pink with reverse of petals deep carmine-pink. A strong, vigorous grower.

Kaiserin Auguste Viktoria. Beautifully shaped buds opening to large white blossoms, borne on long stems.

Killarney Brilliant. Beautifully formed, bright, sparkling pink blooms.

La France. Large, silvery pink flowers; very fragrant.

HYBRID TEA ROSES—Continued

Lady Ashtown. Pale carmine-pink; large, profuse bloomer.

Lady Alice Stanley. Large, fragrant pink blooms.

Lady Hillingdon. Beautiful, clear apricot-yellow blooms of good size.

Laurent Carle. Brilliant crimson, of unusual beauty; late bloomer.

Los Angeles. One of the finest Roses ever introduced. Long-pointed buds, expanding into immense blooms of vivid pink, shaded with yellow at the base of the petals. Intensely fragrant and a vigorous grower.

Miss Cynthia Forde. Deep rose-pink; large and fragrant. One of the best, blooming abundantly until frost.

Mme. Abel Chatenay. Carmine-rose shaded with salmon; very large, free-blooming; popular.

Mme. Caroline Testout. Large, bright satiny-rose, borne abundantly all Summer.

Mme. Jules Bouche. Blush-white; one of the better fragrant white varieties.

Mme. Jules Grolez. Large, double deep rose-pink blooms; long-pointed buds; compact plant; good for bedding. Blooms continually during Summer.

Mrs. Aaron Ward. Deep Indian-yellow blooms of great beauty.

Mrs. Arthur Robert Waddell. Deep apricot; attractive buds. Vigorous.

Ophelia. Creamy white, suffused with pale pink and yellow.

Pharisaer. Very large, well-formed rosy white blooms, borne on long stems by vigorous plants.

Prince de Bulgarie. A most beautiful silvery flesh tint, fine buds, long stems.

Radiance. Red.

Sunburst. Lovely long buds opening to beautiful, salmon-yellow blooms.

White Killarney. A pure white sport from Killarney.

STANDARD or TEA ROSES

Grafted on stems 30 inches high for use in formal gardens, or along walks.

3 to 4 ft. stems, \$2.25 each, \$24.00 per doz.

Los Angeles

BABY RAMBLER ROSES

| | Each | Doz. |
|--------------------|--------|---------|
| 2-year medium..... | \$1.00 | \$10.00 |
| 3-year large..... | 1.25 | 12.50 |

Jessie. Scarlet.

Katharina Zeimet. White.

Orleans. Pink. Everblooming.

CLIMBING ROSES

Especially adapted for covering trellises, pergolas, or embankments.

Roses of this class bloom mostly in clusters. The prices, except as noted, are as follows:

| | Each | Doz. |
|-------------------------|-----------|-------------|
| Small plants..... | \$0.50 | \$5.00 |
| Medium size plants.... | .75 | 7.50 |
| Large plants..... | 1.00 | 10.00 |
| Extra large plants..... | 1.50-2.50 | 15.00-28.00 |

American Pillar. A single-flowering variety with large clusters of deep, carmine-pink flowers. The foliage is especially attractive, the leaves being of a rich, shiny green color and free from insects.

Christine Wright. Double, bright pink.

Climbing Rose, American Beauty

CLIMBING ROSES—Continued

Climbing American Beauty. Large, double, rich carmine blooms borne profusely by a strong-growing plant.

Climbing Sunburst. Beautiful salmon-yellow blooms.

Crimson Rambler. A prolific bloomer and fast grower. Large clusters of small, double, crimson flowers.

Dorothy Perkins. Shell-pink flowers in clusters, borne in profusion.

Dr. W. Van Fleet. Flesh-pink. Luxuriant, dark green foliage. The most popular climbing Rose.

Emily Gray. New. The most beautiful yellow climbing Rose. The color does not fade; attractive, glossy foliage that remains in good condition all Summer. Only two sizes of plants available.

| | Each |
|-------------------------|--------|
| Small plants..... | \$1.00 |
| Medium size plants..... | 1.50 |

Excelsa. Crimson, superior in every way to Crimson Rambler which it resembles.

Gardenia. Most delightful yellow buds, fading white when fully open.

Hiawatha. Broad, deep, intensely crimson single flowers, shading white at base.

Lady Gay. Cherry-pink blossoms borne in loose clusters.

Mary Wallace. A new variety similar to the American Pillar, but having larger blooms of bright, clear rose-pink. Vigorous grower, foliage large and glossy. Strong plants, \$1.25 each; medium plants, \$1.50 each.

Paul's Scarlet Climber. Vivid scarlet. The most brilliantly colored Climber.

Philadelphia. Deep glowing crimson, mildly fragrant, double flowers in large, attractive clusters.

Silver Moon. One of the most delightful Roses. Large, silvery white, semi-double flowers 4 inches across, with a great cluster of bright yellow stamens.

Tausendschoen. Clusters of semi-double blossoms in shades from white to deep pink.

White Dorothy. White-flowering form of Dorothy Perkins.

RUGOSA AND OTHER ROSES

ROSA rugosa. See **Hedge Plants**, page 32.

| | |
|---|--------|
| R. rugosa alba (White Japanese Rose). Each | |
| 1 to 1½ ft..... | \$0.40 |
| 1½ to 2 ft..... | .60 |
| 2 to 2½ ft..... | .75 |
| 2½ to 3 ft..... | 1.00 |

| | |
|---|------|
| R. rugosa rubra (Red Japanese Rose). | |
| 1 to 1½ ft..... | .40 |
| 1½ to 2 ft..... | .60 |
| 2 to 2½ ft..... | .75 |
| 2½ to 3 ft., 2-yr..... | 1.00 |

Conrad F. Meyer. H. Rug. Silvery-pink. 2 yr., \$1.00 each.

F. J. Grootendorst. H. Poly-Rug. Clusters of bright crimson flowers from Spring until frost. Dwarf grower. \$1.00 each.

Sir Thomas Lipton. H. Rug. An ever-blooming Rose with double white flowers. 2-yr. \$1.00 each.

| | |
|---|--------|
| R. rubiginosa (Sweetbrier). Fragrant foliage and small pink blossoms in June, followed by bright berries. Each | |
| 2 to 3 ft..... | \$0.40 |
| 3 to 4 ft..... | .50 |
| 4 to 5 ft..... | .75 |

R. hugonis (Hugonis Rose). Long, gracefully arching branches filled with glorious yellow single flowers at lilac-time. Tall, strong-growing shrub.

| | |
|-------------------|------|
| Small plants..... | 1.00 |
| Medium size..... | 1.50 |
| Large..... | 2.50 |

Vines and Climbers

Vines are as important in adorning the home landscape as any other class of plant material. Most every home has need for some sort of a vine. They mature quickly and aid greatly in softening bare, angular and unsightly spots on the landscape. Many bear profusions of brightly colored flowers while others retain their verdant color throughout the Winter. Below you will find the best varieties listed for every purpose—all hardy, vigorous plants.

ACTINIDIA arguta. A Japanese vine of vigorous growth, with leathery leaves and white flowers.

| | |
|-------------|-------------|
| | Each |
| Medium..... | \$0.50 |
| Large..... | 1.00 |

AMPELOPSIS heterophylla (Porcelain Ampelopsis). Deeply lobed leaves blotched with white and pink. Clusters of blue berries.

| | |
|-------------|-----|
| Medium..... | .50 |
| Large..... | .75 |

A. quinquefolia (Virginia Creeper). A handsome, high-climbing vine with disc-bearing tendrils. Foliage turns to delightful reds and scarlets in Fall.

| | |
|-------------|-----|
| Small..... | .35 |
| Medium..... | .50 |
| Large..... | .75 |

A. tricuspidata (Veitchi) (Japanese Creeper, Boston Ivy).

| | |
|-------------|------|
| Small..... | .50 |
| Medium..... | .75 |
| Large..... | 1.00 |

A. tricuspidata lowi (Lows Japanese Creeper). Better than Japanese Creeper or Boston Ivy because the leaves take on brilliant tones of orange and scarlet in the Fall.

| | |
|-------------|------|
| Small..... | .50 |
| Medium..... | .75 |
| Large..... | 1.00 |

ARISTOLOCHIA siphon (Dutchmans-pipe). Strong growing vine, large leaves, purplish flowers; suitable for shady places.

| | |
|-------------|-------------|
| | Each |
| Small..... | \$1.00 |
| Medium..... | 1.25 |
| Large..... | 1.50 |

BIGNONIA grandiflora (Chinese Trumpet creeper).

| | |
|-------------|------|
| Medium..... | .75 |
| Large..... | 1.00 |

B. radicans (Trumpet creeper). Striking scarlet flower in bloom from July to September.

| | |
|-------------|------|
| Small..... | .50 |
| Medium..... | .75 |
| Large..... | 1.00 |

CELASTRUS orbiculatus (Oriental Bittersweet).

| | |
|------------------|------|
| Small..... | .35 |
| Medium..... | .50 |
| Large..... | 1.00 |
| Extra large..... | 1.50 |

C. scandens (American Bittersweet). A very vigorous grower. Its scarlet fruit is an object of much beauty.

| | |
|------------------|------|
| Small..... | .35 |
| Medium..... | .50 |
| Large..... | 1.00 |
| Extra large..... | 1.50 |

CLEMATIS henryi (Winter Clematis).

| | |
|------------------------------|--------|
| Large flowers, creamy white. | Each |

| Medium...Ea. | \$0.75 |
| Large....Ea. | 1.00 |
| Extra large Ea. | 1.50 |

*Wisteria sinensis* (Chinese Wisteria)

Perennials

Of late years the hardy old-fashioned garden seems to be gaining in popularity, probably because of its source of supply for continuous bloom from Spring until frost, many varieties producing blooms that serve adequately for cut flowers in the house.

By giving these plants a little care and attention they will greatly repay one for the trouble.

The best effects with perennials in the garden are usually gained by planting each variety in fair-sized masses rather than a few plants of each.

We send out only strong, healthy and well-rooted plants.

Prices for perennials, except where otherwise noted, 25c. each, \$2.50 per doz., \$20.00 per 100; extra large, 35c. each, \$3.50 per doz., \$25.00 per 100.

ACHILLEA ptarmica, Boule de Neige.

Small, double white blossoms. Blooms all Summer. 2 ft.

ALTHAEA rosea (Hollyhock). All shades of red, white, pink, and yellow; double and single.

ALYSSUM saxatile (Goldentuft). Flat heads of golden yellow flowers in the early Spring. 1 ft.

ANCHUSA italica, Dropmore (Bugloss). Intense blue flowers on branched stems growing to a height of 4 ft. May-July.

AQUILEGIA (Columbine). In blue-, pink-, red-, and white-flowering varieties blooming in the Spring. 2½ ft.

A. chrysantha (Golden Columbine). Yellow. 3 to 4 ft.

A. Gold Medal Hybrids. 2½ ft.

A. Long-spurred Pink Hybrids. 2½ ft.

A. vulgaris nivea (Mustard White Columbine). Pure white.

Aquilegia

Sweet Alyssum

*Centaurea**Hardy Asters**Campanula medium* (Canterbury-bells)

ASCLEPIAS tuberosa (Butterflyweed). Bright, orange-colored flowers during July and August. 2½ ft.

ASTER, Feltham Blue. Flowers a pretty shade of blue in August and September. 2½ ft.

A. grandiflorus (Great Aster). Dark bluish-violet blossoms in the late Fall.

A. novae-angliae (New England Aster). Large, violet-purple flowers; free blooming. Fall.

A. tataricus (Tatarian Aster). Tall-growing with large, coarse leaves and blue flowers. Fall.

ASTILBE arendsi, Pink Pearl. 3 ft. Pink-feathered heads of flowers in June and July. 2½ ft. 50c. each.

BAPTISIA australis (Blue Wild-indigo). Blue, pea-like flowers in long racemes; June, July. 3 to 4 ft.

BOLTONIA latisquama (Violet Boltonia). Pinkish-lavender flowers in August. 4 to 6 ft.

CAMPANULA medium (Canterbury-bells). Panicles of bell-shaped flowers in blue, pink and white, single and double, in early Summer. 3 ft.

CENTAUREA macrocephala (Globe Centaurea). Large, showy, thistle-like yellow blooms. July. 3 to 4 ft.

C. montana (Mountain-Bluet). Violet-blue Cornflower-like blooms all Summer. 1½ ft.

C. montana alba (White Mountain-bluet). A fine, white-flowered form of the above.

CHRYSANTHEMUM coccineum (*Pyrethrum roseum*) (Painted Lady). A most attractive garden variety with red, pink, or white, daisy-like blooms, single or double. May, June.

C. maximum, Shasta Daisy. Large white flowers with yellow centers, borne abundantly from June to September.

C. Hardy Varieties. Flowers that last until heavy frosts come in very late Fall.

Alice Howell. Orange-yellow.

Autumn Glow.

Cometa. Large yellow flowers.

Eva. Pink.

Fireball. Yellow, crimson striped.

Julia de Witt. Pompon. Bright, bronzy amber, with deeper shadings.

Lucifer. Blood-red blooms of large size.

Mrs. Roberts. Attractive deep pink blooms.

Old Homestead. Delightful light pink shade.

Petite Louis. Large-flowering, silvery-pink.

Ruth. Pompon. Claret-red.

Tints of Gold. Early-flowering, golden-bronze.

Victory. Snow-white flowers lasting until severe cold weather.

CONVALLARIA majalis (Lily-of-the-valley). One of the most attractive perennials; flowers white, fragrant.

COREOPSIS grandiflora (Big Coreopsis). Large yellow flowers on stems, 2 to 3 ft. long, all Summer.

DAISY, SHASTA. See *Chrysanthemum maximum* above.

Dianthus barbatus (Sweet-william)

DELPHINIUM belladonna. Most delightful blooms; clear turquoise-blue, much grown for cut flowers; blooms continuously June till frost. 3 ft.

D. bellamosum. Same as belladonna, only a darker shade of blue.

D. Double-flowering Hybrids. Large double, in dark blue shade.

D. formosum. Deep blue. 1½ to 2 ft.

D. grandiflorum chinense (Slender Larkspur). A lovely dwarf sort (2 to 3 ft.) with open spikes of intense gentian-blue flowers.

D. grandiflorum chinense album. A pure white form of the above.

D. Gold Medal Hybrids. An unusually fine strain, the seeds having been collected from the best named English sorts. The flowers are large, in all shades of blue, particularly the lighter ones, and are carried on 2-ft. spikes.

Prices of Delphiniums, 35c. each, \$3.50 per doz., \$25.00 per 100.

Digitalis (Foxglove)

DIANTHUS allwoodi, Jean. Pure white with deep, crimson-violet center.

D. allwoodi, Mary. Rose-pink with maroon center.

D. allwoodi, Robert. Delightful old rose with light maroon center.

D. allwoodi, Susan. Large, double flower, pale lilac.

D. barbatus (Sweet-william). In various colors. June, July. 1 ft.

D. barbatus (Newport). Salmon-pink. A new color in Sweet-williams.

D. Holborn Glory. White, with distinct red. 35c. each.

D. latifolius atrococcineus. An all-Summer-blooming Sweet-william. Large, deep crimson blooms.

D. plumarius (Grass Pink). Sweet-scented flowers in great masses of pink, white, and magenta. Blooms all Summer. 1 ft.

DICENTRA spectabilis (Bleedingheart). An old-fashioned favorite with purple and red flowers in early Spring. Medium size. 60c. each, large, \$1.00 each.

DIGITALIS ambigua (*D. grandiflora*). (Yellow Foxglove). Large flowers, 2 in. long, yellow marked with brown. 2 to 3 ft.

D. gloxinia, Giant Shirley. Very large, growing to be 5 to 6 ft. Flowers white, light and dark pink. 35c. each.

D. purpurea (Foxglove). One of the favorite old-fashioned garden flowers grandmother used to grow. Fine for naturalizing in borders, shrubberies, along the edge of woods, or other half-shaded places. 2 to 5 ft.

Digitalis purpurea alba. A white form of *D. purpurea*.

D. purpurea gloxiniaeflora. A fine strain selected for the handsome, spotted, gloxinia-like flowers, on long spikes. 5 ft.

D. purpurea maculata superba. An extra choice strain of beautifully spotted blooms.

D. purpurea rosea. A rose-spotted variety of the above.

FUNKIA. See *Hosta*.

GAILLARDIA aristata (*grandiflora*). (Perennial Gaillardia). Daisy-like blossoms of orange-yellow banded with red; all Summer.

GYPSOPHILA paniculata (Babysbreath). Very minute, delicate flowers. Ideal for using in bouquets with larger flowers. June, July.

G. paniculata flore plena. Flowers are larger and double, also of a purer white; valuable for the flower border. 2 to 3 ft., 50c. each.

HELIOPSIS helianthoides pitcheriana (Pitcher Heliopsis). Blooms about 2 to 2½ in. in diameter.

HEMEROCALLIS aurantiaca (Orange Daylily). Fragrant yellow flowers. June, July. 2 to 3 ft.

H. flava (Yellow Daylily). Fragrant, lemon-yellow flowers in June and July. 2½ to 3 ft.

HEUCHERA sanguinea (Coralbells). Dwarf, bushy, compact plant, having graceful spikes of coral-red flowers in June and August. 1½ to 2 ft., 35c. each.

Our stock of annuals, vegetable plants and bedding plants is very complete for Spring plantings and window box work.

HIBISCUS moscheutos (Rosemallow). Immense, hollyhock-like single blooms in Midsummer.

Giant Pink, Giant Red, Giant White.

HOLLYHOCK. See *Althaea*, page 38.

HOSTA lancifolia undulata (*Funkia*) (Wavyleaf Plantainlily). Long, narrow, wavy-edged leaves, with white margins; pale lilac flowers.

H. plantaginea (subcordata) (White Plantainlily). Delightfully fragrant, white, trumpet-shaped flowers. 35c.

H. sieboldiana. Leaves with metallic blue sheen; pale blue flowers in Midsummer.

IBERIS sempervirens (Evergreen Candytuft). Very dwarf. Pure white flowers in April or May.

IRIS germanica (German Iris). In blue, white and purple with yellow center. Also the following named varieties. June. 2 to 3 ft.

Mme. Chereau. White, edged with blue.

dalmatica (Pallida dalmatica).

Parisiana. Large white, shading to lilac-purple.

Princess Beatrice. Very attractive flowers, large size, of lavender-blue, shading to pale blue; fragrant.

Queen of May. Rosy-lilac.

I. kaempferi (Japanese Iris). Immense, flat blooms in many gorgeous colors on stocks 3 ft. high. Last of June.

Choseiden. Ruby pink.

Datedogu. Reddish-pink.

Fuki-yose. Light ground-color, marbled with aniline-blue.

Na-ga-no. Violet-purple, shaded blue.

Schuchun-no-hana. Crimson-purple, with white veins and center.

Sufo-No-Koi. Blue and white.

Yomo-no-umi (Boundless Sea). Creamy white.

I. sibirica (Siberian Iris). Flowers purple and smaller in size than the preceding. May, June.

Perrys Blue. Clear blue flowers on erect stems, very large. Good for cutting. \$1.00 each.

KNIPHOFIA uvaria grandis (Tritoma pfitzeri) (Bonfire Torchlily). Rich orange blooms in tall spikes in Fall. 30c. each, \$3.00 per doz.; extra large, \$1.25 each, \$12.50 per doz.

LILIUM candidum (Madonna Lily). Old-fashioned garden Lily. Plant only in Fall. 50c. each.

L. superbum (Swamp Lily). Native variety, with bright, reddish-orange spots. 3 to 6 ft., 35c. each.

Lilium tigrinum (Improved Tiger Lily). Bright orange-red, with black spots. 4 to 5 ft., 35c. each.

L. tigrinum flore plena (Double Tiger Lily). Double flowers of orange-red with black spots. 35c. each.

LOBELIA cardinalis (Cardinalflower). Spikes 2 to 2½ ft. long, of cardinal flowers. August and September.

LUPINUS polyphyllus (Washington Lupine). Blue flowers on long spikes. June to August.

L. polyphyllus albiflorus. White.

L. polyphyllus roseus. Pink.

LYCHNIS chalconica (Maltese Cross). Small, brick-red flowers in June. 2 to 3 ft.

MONARDA didyma (Oswego Beebalm). Scarlet flowers from July to September.

MYOSOTIS scorpioides (True Forget-me-not). Slender-stemmed plants bearing bright blue flowers with yellow eyes. March to August. 9 in.

PACHYSANDRA terminalis (Japanese Pachysandra). A low-growing evergreen cover plant with white flowers.

PAPAVER nudicaule (Iceland Poppy). A dwarf grower producing small flowers in several colors all Summer.

P. orientale (Oriental Poppy). Large, gorgeous red flowers on 3-ft. stems. June.

P. orientale, Goliath. Fiery scarlet, with maroon blotch.

PENTSTEMON barbatus torreyi (Beard-tongue). Bright scarlet spikes of flowers. June to August, 2 to 4 ft. 35c. each.

Lilium candidum (Madonna Lily)

PAEONIA. *Peony*

One of the most satisfactory of the perennials. Immense, double flowers in all colors, most of them with a delightful fragrance. June.

Augustin d'Hour. Brilliant solferino-red, slight silvery reflex.

Beaute Francaise. Pink.

Edulis Superba. Bright mauve-pink.

Felix Crousse. Brilliant red.

Festiva Maxima. Pure white, center flecked crimson.

Francois Ortegat. Purplish-crimson.

Louis Van Houtte. Deep carmine-rose.

Officinalis rubra. The well-known, very early, double crimson.

Queen Victoria. Milk-white guards, tinted flesh, center cream-white with crimson spots.

Richardsons Dorchester. Salmon-pink; late bloomer.

PHLOX

One of the most beautiful and useful of the border plants. Flowers all Summer in large trusses, colors ranging from white to rich crimson and soft pink to bright coral-red. Very fragrant.

35c. each, \$3.50 per doz.; larger size, 50c. each, \$5.00 per doz.

Athis. Salmon-pink.

Baron von Dedem. Red.

Phlox, Miss Lingard. White with pink eye. One of the best varieties

Peonies

Baron von Heeckeren. Pink.

Belvidere. Cerise.

Coquelicot. Orange-scarlet.

Eclaireur. Red.

Elizabeth Campbell. Salmon-pink. One of the best varieties for bedding.

Etna. Orange-red, tinted salmon.

Eugene Danzanvilliers. Light lilac.

Ferdinand Cortez. Deep crimson.

Fraulein von Lassburg. Large white.

Feu du Monde. Coral-red.

Le Soleil. Pale pink.

Matador. Cerise.

Michael Buchner. Lavender.

Miss Lingard. White with pink eye.

Mrs. Jenkins. White.

Peachblow. Pink.

Professor Virchow. Carmine.

Queen. White.

Rheinlander. Deep pink.

Richard Wallace. White, large crimson eye.

Rijnstroom. Carmine. Good variety for bedding.

Sir Edward Landseer. Bright carmine.

Sunset. Dark rosy-pink.

Terre Neuve. Purple.

Thor. Deep salmon-pink.

PHLOX subulata alba (Moss Pink). White.

P. subulata lilacina. Lilac.

P. subulata rosea. Rose.

PHYSALIS francheti (Chinese Lantern-plant). Dense, bushy plant, bearing bright orange-scarlet, lantern-like fruits. 2 ft. 35c. each.

We call attention to our hardy Phlox "East Hampton" originated on our own grounds. It is a beautiful salmon-pink, height 4 feet. It has never reverted to any other color. 40c. each, \$4.00 per doz.

PHYSOSTEGIA virginiana speciosa (False-dragonhead). Tall spikes of pink flowers all Summer.

PLATYCODON grandiflorum (Balloonflower). Large, balloon-shaped violet-blue blooms. July to September. 2 ft.

P. grandiflorum alba. Same as preceding, but white.

POLEMONIUM caeruleum (Greek-valerian). Spikes of sky-blue flowers. June to August. 1½ ft.

POTENTILLA formosa. Small, compact plant, bearing profusion of single rosy-red flowers from June to August. 18 in.

PRIMULA veris (Cowslip Primrose). Dwarf; yellow flowers in early Spring. 9 in.

PYRETHRUM. See **Chrysanthemum coccineum**, page 39.

RUDBECKIA laciniata, **Golden Glow**. Masses of double golden yellow flowers. 6 ft.

R. purpurea (Giant Purple Coneflower). Large, reddish-purple flowers, brown center. 3 ft. July to October. 35c. each.

SALVIA azurea (Azure Sage). Tall spikes, 3 to 4 ft. high, of small, intense blue flowers in August and September.

SEDUM spectabile (Showy Sedum). Large flat heads of pink flowers in September. 1 ft.

STATICE latifolia (Great Sea-lavender). Small, purplish-blue flowers in clusters. 18 in. July to October. 35c. each.

STOKESIA cyanea (Stokesia). In blue- and white-flowering varieties. Very double. Early Fall.

THALICTRUM minus adiantifolium (Maidenhair Meadowrue). Has the appearance of a fern, but produces white flowers in Midsummer. 2 ft. 50c. each.

T. diptercarpum (Yunnan Meadowrue). Sprays of violet-mauve flowers on tall stems in early Summer. 50c. each.

TRITOMA. See **Kniphofia**, page 41.

Veronica

VERONICA incana (Woolly Speedwell). Always attractive, whether or not in bloom. An upright, woolly plant, 1 to 1½ ft. high, with many racemes of blue flowers.

V. longifolia subsessilis (Clump Speedwell). Showy, intense blue flowers in tall spikes (3 ft.), the stems well furnished with foliage. An excellent cut flower. 35c. each, \$3.50 per doz.

V. spicata. Good border plant. Spikes of light blue flowers in June and July. 1½ ft. 35c. each.

V. teucrium rupestris (Rock Speedwell). Tufts or mats of dainty little plants. A beautiful ground cover for rock gardens or borders. Blue flowers in Spring.

VINCA minor (Periwinkle). One of the best for ground covers, with evergreen shiny foliage and small blue flowers. Thrives in the shade.

VIOLET, Double Russian. Very hardy, early and fragrant sort for outdoor culture.

ORNAMENTAL GRASSES

PENNISETUM ruppeli (Fountain Grass). Long, narrow, gracefully recurving, bronzy green foliage. 50c. and \$1.00 each, according to size.

PHALARIS arundinacea picta (Ribbon Grass). A tall, hardy grass, with yellowish white stripes lengthwise on the leaves. Medium size plants, 50c.; large plants, 75c.

Sedum spectabile

We grow and handle cut flowers throughout the entire year for all occasions.

Fruit Department

When planning our home grounds we are too apt to forget that it is possible to combine beauty and utility and reap dual benefits from our efforts. This is especially true of fruit trees—not only do they provide fruit for our consumption but furnish the landscape with flower and foliage.

For the small city plot where garden space is limited, we especially recommend the use of dwarf fruit trees. It is surprising what quantities of fruit may often be obtained from these small trees. We have an excellent selection, in several sizes, of the fruits best suited for Long Island.

STANDARD APPLES

SUMMER VARIETIES

- Early Harvest. Yellow. July, August.
- Red Astrachan. Red. July, August.
- Yellow Transparent. Yellow. July, August.

AUTUMN VARIETIES

- Duchess of Oldenburg. Red. September.
- Fall Pippin. Green. October to December.
- Gravenstein. Greenish-yellow. September, October.
